## STRAWBERRY SHIPMENT

### The Daily Report from Monett and Vicinity.

Thursday was a hard day for strawberry shipments as it makes Sunday delivery for Monday in many of the large markets and buyers did not take hold. There were 29 cars handled by the Ozark Fruit Growers Association. For a time it looked as if the managers were up a tree but in the afternoon telegrams were received for thirteen cars from the northwest and six for the east which greatly relieved the situation.

The continued heavy receipts have a depressing effect on the market. It looked for a time as if the market would be forced down to \$1.50 but in the end the greater part of the days output was placed at \$1.65. The Independents shipped seventeen cars making a total of forty-six for the district.

### Strawberry Shipments from Peirce City.

Up to Thursday night of this week the Peirce City Fruit Growers Association shipped nineteen cars of strawberries this season besides the express shipments.

The berries are fine and by the last of this week more berries will have been shipped from our city than the association shipped a last season, and next week will be a good or a better yield from the berry fields than this week was.—Peirce City Leader.

So far as Rogers is concerned, the strawberry season is about over and it hasn't been much of a season either. The Shippers Union is loading its ninth car and it is expected to be the last. The rains have caused the prices to drop and \$1.50 is about the limit now.—Rogers Democrat.

### Block Signal System On Frisco.

The Frisco road is now busy installing over 800 miles of block signal on the system at a great expense to insure the safety of its passenger trains. These electric or block signals are placed on the track at a distance of two miles. On the first mile the hand of the semaphore is at forty-five degrees and warns the train crew that there is a train in the next block.

The train which is warned proceeds at a slow rate of speed. If the semaphore hand is perpendicular the crew of the train just warned, know that another train is on the track in that mile and stop. With this arrangement the danger of accidents is greatly reduced.

The concrete foundations for the semaphores are nearly all completed. They are placed between Kansas City and Black Rock, Ark., via Springfield. This gives Springfield a complete block signal system to Kansas City. The same signal service is being installed by the Frisco between St. Louis and Monett a distance of 248 miles. This gives Springfield a block system to St. Louis. There are 525 miles of signals on the route making a total of over 800 signals. Springfield is benefited more than any other city on the Frisco by these improvements. The officials hope to have the signal system completed by July 15.—Springfield Republican.

### BECOMING INTERESTING.

### Ebenezer.

Berry picking is about to an end. This has been one of the most beautiful berry harvests we have ever witnessed. Having good fruit, good prices, and good weather.

Last Sabbath may not have been broken but it was badly bent by several in this vicinity.

The Sunday schools were not so very well attended Sunday on account of berry picking.

Mr. Hackney and daughters, of Springfield have been visiting Mr. Jao. Mulkey and family the past week.

Real estate is becoming current property in this vicinity again. The Dume Eubanks place having been sold twice the past few days.

Five head of cattle were killed in this community Saturday night by lightning. Three belonging to Jno. Mulkey and two to C. C. Caldwell.

Mr. Will Conrey is able to be up again.

The crops in this neighborhood are all looking fine. Wheat and oats are exceptionally good.

Mr. Willie Ethridge has sold his buggy and harness. He expects to purchase an automobile as soon as berry harvest is over.

As there were no deaths, no births, no weddings, no separations, this week and everybody is to busy to go visiting items are scarce. Will try to do better next week.

### A GOOD REASON

### Monett People Can Tell You Why It Is So

Doan's Kidney Pills cure the cause of disease, and that is why the cures are always lasting. This remedy strengthens and tones up the kidneys, helping them to drive out of the body the liquid poisons that cause backache, headache and distressing kidney and urinary complaints. Monett people testify to permanent cures.

S. H. Lauderdale, W. Wishart S., Monett, Mo., says: "About a year and a half ago I began to suffer from a lame back and a disorder of the kidneys. At night I had to get up several times to pass the kidney secretions and also noticed a sediment in them. Doan's Kidney Pills, procured at Knapp's drug store quickly removed these troubles and restored me to good health. Another member of the family has also taken this remedy with the desired benefit."

### Mt. Vernon News

From The Chieftain

Last Saturday Renfro paid out \$890 for poultry and eggs.

Judge Lud Durnil of Monett, was shaking hands with his numerous friends at this his boyhood home, Monday.

Clean up-day was pretty generally observed in Mt. Vernon. In fact nearly everybody worked most of the previous week getting their premises in ship shape, leaving but little to do when the day rolled round.

Uncle Boyd Hillhouse of Upper Honey creek was in town Tuesday in custody of the tallest corn yarn of the season. He says that two days less than three weeks ago he planted a piece of new ground in corn and Monday he measured some of the stalks and found them 16 inches high. But for the unfavorable corn growing weather there is no telling how high that corn would have been.

### Wheat Prices Soar Up

St. Louis, June 3.—Cash wheat reached the highest price on change Thursday ever touched since the civil war. A car of No. 2 red winter brought \$1.65, a price never reached in this market price on record in this market. The demand for cash wheat was slow and the offerings small, which probably accounted for the high prices brought by the two grades.
